

## CAPITAL IMPROVEMENT FUNDING PARTNERSHIP

Osteopathic  
Heritage  
Foundations

THE COLUMBUS  
FOUNDATION

# YEAR ONE INVESTMENT SUMMARY

# Year One

APRIL 2015

**In 2014, the Osteopathic Heritage Foundation and The Columbus Foundation joined resources and program interests to launch the Capital Improvement Funding Partnership.** Recognizing the value of collaboration and the need for capital investments among nonprofits, the foundations committed to a one-to-one funding match to support capital campaigns and projects designed to better serve vulnerable populations in Franklin County. **The multi-year initiative will make up to \$6 million available to area nonprofits.**

Research by The Columbus Foundation found significant demand for capital campaign and project support, following recent economic down-turns and recovery periods. **By partnering, the foundations were better positioned to meet the needs of area nonprofits, and together, created a streamlined application and funding process to help organizations leverage the support necessary to make capital campaigns and projects a success.**

The foundations also seek to advance strategies that can demonstrate and achieve measurable improvements at the organizational and client service level as a result of the capital investments.

**In the inaugural year of the partnership, the foundations approved more than \$1.8 million in support to twenty-one (21) central Ohio nonprofit organizations working to address significant community issues, including homelessness and access to behavioral health care.** Investments in the first year of the partnership also demonstrated the value of philanthropic collaboration for achieving greater community impact.

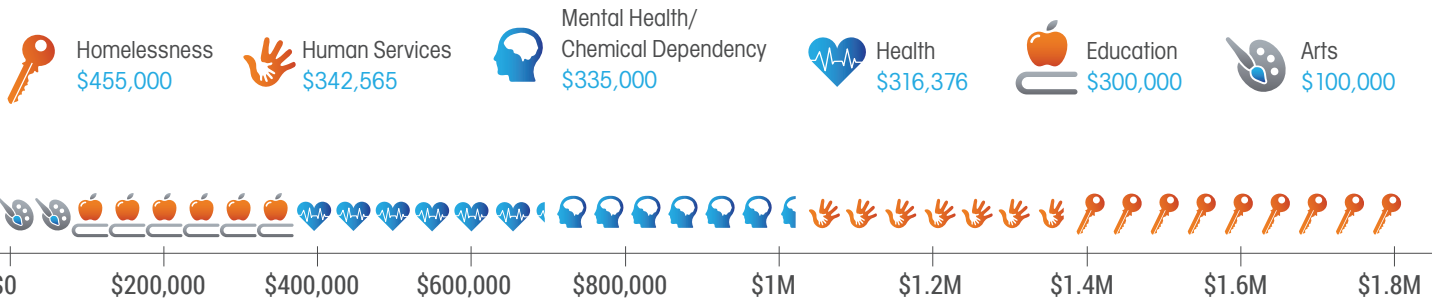

“Capital funds are hard to come by, which is why it was such a blessing to see the Osteopathic Heritage Foundation and The Columbus Foundation recognize this and make funds available to support improvements vital to the organizations serving our community.”

-King Stumpp, NetCare Access

## Capital Improvement Funding Partnership Year One Investments

Total Investment  
\$1,848,941

## Demonstrating the value of **PHILANTHROPIC COLLABORATION** for achieving greater community impact.

Over \$500,000 in allocations were made to organizations serving the Franklinton area, a socio-economically vulnerable neighborhood in Columbus.

A total of \$455,000 combined support was directed to organizations serving Franklin County's homeless population through emergency and long-term housing solutions.

Joint investments by the foundations will increase access to vital human services, ranging from oral health provision to intergenerational care for vulnerable children and seniors.

# Transformation Growth Revitalization

## Desired Outcomes

## Anticipated Outcomes

### Outcomes for Organizations

#### Reduction of Costs

- Funded organizations anticipate over \$1.6 million in savings over the coming year.

#### Increase in Revenue

- Funded organizations estimate \$1.9 million in increased revenue in the coming year.

#### Creation of Process Efficiencies

- Process efficiencies will include a decreased wait time for callers accessing Franklin County's information and referral helpline, a decreased length of in-patient stays for people experiencing a mental health or substance abuse crisis and more efficient and timely access to patient information, decreasing client wait time and improving care.

### Outcomes for Clients

#### Increase in Number of Clients Served

- A total of 4,877 new clients will be served in the coming year.

#### Increase in Percentage of Clients Achieving Service/Program Outcomes

- Outcomes include more clients finding shelter and long-term housing, more seniors achieving improved health outcomes and more children improving gross motor skills.

#### Creation of New Services to be Offered to Clients

- These new services include summer programs for children, a universally accessible playground and a new health clinic in the Franklinton neighborhood.

The partnership

**STRENGTHENED NONPROFITS** serving  
Franklin County's most vulnerable populations.

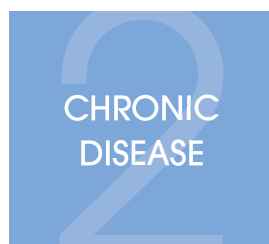

## POOLING RESOURCES

to increase access to vital human services.

By pooling resources, the foundations were also able to support organizations addressing **the top five Franklin County priority health needs**, as identified in a recent Columbus Public Health community needs assessment.

### Top Five Franklin County Priority Health Issues
